JUPITER HEALTH AND SAFETY POLICY & OBJECTIVE

JUPITER is a leading Engineering, Procurement and Construction (EPC) services provider for industrial and commercial projects, in KSA and GCC areas,

JUPITER Management is firmly committed to perform all work activities safely, adopt all possible measures to reduce and eventually eliminate all risks to the safety, health and welfare of workers, contractors, authorized consultants & visitors, and those who may be affected by our operations, within the laws and regulations of the country in operation.

JUPITER management commits also to provide and maintain:

1. All customers and interested party's requirements.
2. Healthy, safe, and secure environment for all interested parties.
3. The necessary resources for the achievement of the objectives.
4. Adequate managerial, technical, and operational control measures.

JUPITER is implementing, communicating, and maintaining an Occupational Health and Safety Management System based on the requirements of international standard ISO 45001: 2018 with the objective of eradicating lost time.

JUPITER ensures that all personnel involved in their operations have attained the appropriate safety awareness and induction training and that they understand and realize the hazards and risks of the performed activities and consequently implement the relevant and specific required control measures.

JUPITER continually strives to improve the performance of its occupational health and safety management system, by setting clear objectives and authorizing all their people involved in their operations and construction activities to stop any hazardous activity on the spot and request the immediate intervention of the assigned responsible entity.

JUPITER Management is committed to reviewing the Policy and Objectives early and to ensure conformity to the purpose of the organization.
